AGENCY'S DISCUSSION AND ANALYSIS

Purpose, Organization and Major Responsibilities

The Office of the State Auditor (OSA) serves as the independent audit function for the State of South Carolina. The OSA is organized into three service delivery divisions, State Agency, Medicaid and Internal Audit Services, supported by an Administration division.

State Agency Division - Composed of approximately 28 audit professionals, this division has 4 core responsibilities:

1. Annual audit of the State's Comprehensive Annual Financial Report (CAFR) as prepared by the Office of the Comptroller General.
2. Annual audit of the Schedule of Expenditures of Federal Awards (Single Audit).
3. Attestation engagements of each state agency not separately audited, which are focused on internal controls.
4. Attestation engagements of county and municipal treasurers, county clerks of court, magistrates, and municipal clerks of court to ensure that the imposition, collection and remittance of court fines, fees and assessments are in accordance with applicable state laws.

Medicaid Division - Composed of approximately 19 audit professionals, this division performs attestation engagements of financial and statistical reports filed by providers of Medicaid services, primarily nursing facilities. These engagements, performed under contract with the South Carolina Department of Health and Human Services (DHHS), determine if the reimbursement rate based on costs claimed for reimbursement by the provider are free from material misstatements based on South Carolina's State Plan for Medical Assistance, the applicable contract between DHHS and the Medicaid provider and all applicable state and federal laws and regulations. The contract agreement with DHHS requires that an engagement be performed on each provider facility at least once every 4 consecutive cost reporting periods.

Internal Audit Services Division – Composed of approximately 7 audit professionals, this division focuses on providing services to the SC Department of Transportation (SCDOT) and performs independent and objective assurance and consulting activities designed to add value or improve SCDOT's operations. The division assists in accomplishing strategic objectives and mission by bringing a systematic and disciplined approach to evaluating and improving the effectiveness of risk management, control and governance processes.

Administration Division – Composed of approximately 6 administrative professionals who provide accounting, budgeting, human resource, purchasing, technology, word processing and other administrative support for the agency.

Analysis of the Agency

OSA continues to focus on implementing initiatives designed to improve efficiency and service delivery or to recruit, develop and retain staff.

Major Accomplishments

The following accomplishments relate to the agency's core mission:

AGENCY NAME:	Office of the State Auditor		
AGENCY CODE:	F270	SECTION:	105

- The audit of the CAFR for fiscal year June 30, 2018, performed jointly with CliftonLarsonAllen, LLP (CLA), a national public accounting firm, was completed November 15, 2018, the date mutually agreed to with the Office of the Comptroller General. The total cost for CLA's services was \$345,200, which was reimbursed by state agencies.
- The audit of the State's schedule of expenditures of federal awards (single audit), also performed jointly with CLA, was issued March 8, 2019. Covering compliance with laws and regulations for nearly \$8.4 billion in federal award expenditures, the single audit engagement required over 13,000 hours to complete in addition to the assistance provided by various state agencies. Total cost for CLA's services was \$632,000, which was reimbursed by state agencies.
- Completion of 76 agreed-upon procedures engagements for state agencies covering fiscal years 2017 and 2018.
- Completion of 44 agreed-upon procedures engagements covering 26 healthcare providers receiving Medicaid reimbursement. Medicaid receivables of \$3.1 million to date have been established based on these engagement findings.
- Through contract with three certified public accounting firms, completion of 31 agreed-upon procedures engagements of county and municipal courts.
- Completion of 6 internal audit reports related to SCDOT.
- Engaged a peer review team through the National State Auditors Association (NSAA) to review our system of quality control. We received a grade of "pass", the highest grade given.

Other significant accomplishments and initiatives:

- Invested heavily in training and development of staff at all experience levels with a focus on both technical and soft skills. Over 2,800 hours of training were received by approximately 44 audit professionals either on-site or through training events sponsored by nationally recognized leaders in training for accounting and auditing professionals such as AICPA, NASACT and GFOA.
- Continued planning to eliminate the joint auditor for the State's audit of expenditure of federal awards (Single Audit) beginning with fiscal year 2020. By performing the audit using only OSA staff, \$632,000 of audit fees currently paid by state agencies will be eliminated.
- Began the planning process for soliciting proposals from public accounting firms to perform the joint audit of the State financial statements beginning with fiscal year 2020. The request for proposal will reflect OSA's increased capacity to contribute more leadership, responsibility and control to the joint audit process than it has had in at least two decades.
- Over the last 4 fiscal years, eliminated the use of contract certified public accounting firms on 30 state agency engagements.
- Continue to realize value in Medicaid audit services provided to DHHS. Over the last 5 fiscal years, our Medicaid Division has identified amounts for recovery equal to over 3.5 times the cost of the audit services provided.
- Completed a strategic plan for the Internal Audit Services division which was a collaborative effort between team members and the division director.
- Issued the first of a series of internal audit reports assessing SCDOT's current state compared to SCDIS-200 control standards issued by the SC Division of Information Security. These assessments will guide SCDOT leadership in prioritizing gaps identified using a risk-based approach.
- Formed a task force to explore how OSA can leverage current and emerging audit technology to increase our efficiency and effectiveness. Scope is primarily focused on data analytics applications but also includes consideration of robotic process automation.

AGENCY CODE:	F270	SECTION:	105

- Began an initiative to identify cloud-based software solutions to reduce or eliminate the need for an in-house application manager. This move is expected to be cost neutral but will significantly reduce staff time spent with software issues, allowing that time to be redirected to more productive work.
- Through our initiative to move more to the cloud, we are alpha-testing a cloud-based version of our audit documentation software application, enabling us to provide feedback during the development stage to influence the final product design.
- Reengineered the agency's Quality Control Manual and Engagement Manual to eliminate unnecessary and duplicative information and to increase ease of use.
- Further refined our performance management system by add criteria to the planning stage EPMS which will guide staff in better understanding successful performance and exceptional performance.
- Recognized high performing staff through a redesigned EPMS process by awarding a bonus or base pay increase to staff who earned an overall exceptional performance rating.
- Managed turnover to approximately 10%. While this is an increase from the prior fiscal year, turnover remains in a healthy range, providing career advancement opportunities for younger staff.
- Continued to push "everyday flexibility", allowing team members to work the hours the work requires and take time off as needed.
- Improved recruiting practices continue to benefit the agency, with 59 of 60 authorized FTE positions being filled at fiscal year-end. Productive hours worked among 42 staff positions increased 4% by reducing the time positions are vacant.
- Continued to identify inefficiencies in our processes, including helping staff understand that even small changes can add up to huge time savings over the course of an engagement.

Performance Comparison to Prior Years

Audit of the State's CAFR

The State's CAFR for fiscal year 2018 was issued 138 days after fiscal year end, meeting the goal issue date agreed to with the Comptroller General's Office. As illustrated in Figure 1, better planning, efficiencies and closer coordination with the Office of the Comptroller General staff have led to the report being issued within a reasonable expectation. The goal for fiscal year 2019 is to issue the CAFR within 137 days of fiscal year end.

Figure 1
CAFR Days to Complete (compared to target)

Audit of Expenditures of Federal Awards (Single Audit)

The Single Audit for fiscal year 2018 was completed in 251 days, ahead of the 274 day (March 31) deadline imposed by the US Office of Management and Budget. OSA has set an internal goal for the fiscal year 2019 report to have the Single Audit issued within 250 days, three weeks before the official March 31 deadline.

Agency Engagements Completed

An attest engagement should be completed for each agency annually. These engagements are primarily performed between March and September for the prior fiscal year (e.g. FYE 6/30/18 engagements are performed during March to September 2019). Figure 3 illustrates all engagements completed during the fiscal year.

Figure 3
Agency Engagements Completed (With comparison to goal)

Court Engagements

For fiscal year 2019, 31 court engagements were issued, exceeding our goal of 15.

Court Engagements Completed (Goal = 15)

AGENCY CODE:	F270	SECTION:	105

Medicaid Engagements Completed

For fiscal year 2019, reports for 44 Medicaid engagements were issued, covering 26 healthcare providers. Our contract with the DHHS requires that an engagement be conducted for each nursing home provider at least once every four consecutive reporting periods. Report issuance numbers can vary greatly between fiscal years due in large part to work related to large chain operations and length of engagements.

Figure 5
Medicaid Engagements Completed

Medicaid Receivables Identified

For fiscal year 2019, Medicaid receivables in the amount of \$3.1 million to date have been established by DHHS, based on our findings in reports issued. As illustrated in Figure 6, Medicaid receivables can vary significantly from one year to the next. These receivables are not predictive and have no direct correlation to the number of reports issued. The degree of provider compliance with program rules and regulations when reporting cost claimed for reimbursement will always be the determining factor in the amounts established.

Risk and Mitigation Strategies

Our independent audit services provide stakeholders with assurance that the information reported in the State’s annual financial report is accurate and reliable. These stakeholders include taxpayers, citizens, elected officials, bondholders and others in the financial community. Should OSA fail to complete the audit of the State’s annual financial report, independently audited financial information would be unavailable, impeding financial transparency to the public and creating a lack of confidence in the financial community which might potentially impact the State’s ability to issue new debt. Existing debt might also be called by bond-holders due to noncompliance with financial reporting requirements. Similarly, a failure to complete the statewide Single Audit and file the report timely with the federal government might interrupt the flow of nearly \$8.4 billion of federal awards received annually by various state agencies due to noncompliance with annual reporting requirements for federal awards.

If either or both scenarios occurred, the State could mitigate the consequences by hiring a Certified Public Accounting firm to perform the independent audit work normally performed by OSA. Doing so, however, would likely come with a substantial cost and a protracted lead time to issue final reports due to the substantial man-hours required to complete both audit engagements.
